A Suggested Rules and Code of Ethics for Schools within the Archdiocese of Oklahoma City

adapted from NCEA'S From the Chalkboard to the Chatroom 1997

As a computer user, I agree to follow the rules and code of ethics in all of my work with computers while attending St. Joseph Catholic School.

1. I recognize that all computer users have the same right to use the equipment; therefore I will not use the computer resources for non-academic purposes. I will not waste or take supplies such as paper, printer ribbons, and diskettes that are provided by the school. When I am in the computer lab, I will talk softly and work in ways that will not disturb other users. I will keep my computer work area clean and will not eat or drink in the computer lab.
2. I recognize that software is protected by copyright laws; therefore I will not make unauthorized copies and I will not give, lend, or sell copies of software to others. I understand I will not be allowed to bring software applications, games, or CD-ROMS from home to be used on school equipment without proof of licensure and prior approval of appropriate school personnel.
3. I recognize that the work of all users is valuable; therefore, I will protect the privacy of theirs by not trying to learn their password; I will not copy, change, read, or use files from another user without prior permission from that user; I will not attempt to gain unauthorized access to system programs for computer equipment; I will not use computer systems to disturb or harass other computer users or use inappropriate language in my communications. I will honor my school's procedures for the storage of information. I understand that I am expected to save files that I want to keep on my own floppy disk. I realize that, after prior notice has been given to me, files may be deleted from the system to protect the integrity of the network or because of space limitations on the computer's hard drive.
4. Each student who receives Internet access through an account will be instructed in the proper use of the network. The use of the Internet must be in support of education and research consistent with the educational objectives of the school. Students using network or computing resources must comply with the appropriate rules for that network or resource. As a user of a network, I will not use bulletin boards nor chat lines for personal use. In addition, I will not reveal my personal information, home address or personal phone number or those of students, teachers or other staff members. Transmission of any material in violation of any U.S. or state regulation is prohibited. This includes, but is not limited to: copyrighted material, threatening or obscene material, or material protected by trade secret. The use of school computers and networking resources for commercial activities is not permitted. Their use for product advertisement or political lobbying is also prohibited.
5. Parents must realize that their students may encounter material on a network/bulletin boards that they do not consider appropriate (vulgar jokes, statements of belief that some might consider immoral, etc.). The student is responsible for not pursuing material that could be considered offensive.
6. The use of the computer is a privilege, not a right, and inappropriate use will result in the cancellation of these privileges. Vandalism or intentional modification of system settings will result in cancellation of privileges and/or school disciplinary action. The school reserves the right to seek financial restitution for any damage caused by a student or other user. The system administrators will deem what is inappropriate use, and their decision is final. The system administrators may close an account at any time as required. The administration, faculty, and staff of the school may request the system administrator to deny, revoke, or suspend specific user privileges. Violations of the rules and code of ethics described above will be dealt with seriously. Violators are subject to loss of computer privileges.
